

Artist Venue Accessibility Guide

The large majority of Pleasance's venues are temporary spaces built for the purposes of the festival, usually in non-traditional performance spaces. While we endeavour to make these as accessible as possible, some are more suitable for others in terms of their location, dressing rooms/back of house areas and control positions.

The table below details accessibility information for each of our Edinburgh fringe venues in terms Each venue has been assigned a rating as follows for ease of reference:

Green	Good accessibility - suitable for performers and creative team members who are wheelchair users or have limited mobility, it has good access to accessible back of house facilities.
Amber	Moderate accessibility - accessible, but some elements are not as ideal and special provisions may be required and prepared for in advance.
Red	Poor accessibility - not suitable for performers or creative team members who are wheelchair users or have limited mobility.

If you have any questions regarding venue accessibility whatsoever, please don't hesitate to get in touch with us on access@pleasance.co.uk or 02076196868 and a member of our team will be able to answer your questions.

Break Out Spaces

Due to constraints on space, we don't have pre-allocated breakout/chill out spaces associated with each venue. However, if you require this, please let us know and we will try our best to accommodate you with a space as near as possible to your venue.
